DOMESCO Medical Import-Export JSC (Stock code: DMC) would like to clarify the fluctuation of profit after tax in Q3/2022, which increased by 26,6% compared to Q3/2021:

1. Business performance of Q3/2022 compared to Q3/2021

- + The Pharmaceutical industry as well as the need for healthcare following the COVID-19 pandemic expanded significantly. The Company capitalized on the growing need for functional meals, nutritional supplements, and immune-boosting goods, from which the company has produced a diverse line of products that satisfy consumer needs.
- + Besides that, the Company promoted the release of products into the hospital channel as soon as the pandemic situation was effectively controlled, as the number of hospital visits progressively recovered alongside the economy's opening.
- + Consistently implemented techniques to reduce non-essential expenditures, with a focus on production and business operations, as well as equipment and plant maintenance, in order to maximize productivity and enhance the quality of important goods manufactured by the Company itself.

- + Ongoing brand promotion initiatives, branding of the company's design and advertising procedures, expansion of the brand's awareness on online media platforms, and sponsorship programs.

The above are the main reasons for the growth in profit after tax of Q3/2022 compared to Q3/2021.
