Subject	Overcome the status of warned and supervised securities

Content:

On August 14, 2024, An Giang Import - Export Company reports the measures and schedule to overcome the status of securities being put under warning and supervision with details as follows:

1. For warning status:
 - Searching and contacting customers to collate debts.
 - Withdrawing part of contributed capital at subsidiary, associated company to maintain its working capital.
 - Looking for partners to liquidate some assets, as well as the investment withdrawal.
 - Mobilizing capital from credit institutions and expected to be issued shares in the private placement.
2. For supervision status:
 - Implementing restructuring of business activities, personnel, enhancing debt collection and liquidating assets to improve profit in order to overcome the negative equity.
 - Looking for investors to implement the share private placement plan to supplement working capital for the Company's production and business activities.
 - Promoting high quality rice export to key markets, strengthening sales in local.
