REPORT OF THE BOARD OF DIRECTORS AT THE ANNUAL GENERAL MEETING OF SHAREHOLDERS 2025

Dear shareholders of the Company,

The year 2024 continued to be a year full of difficulties, challenges, and global and domestic fluctuations. Along with the post-COVID crisis, the risk of economic recession, and the decline in purchasing power and consumption, these factors negatively impacted production and business activities, especially for businesses in the passenger transport sector, such as taxi services.

The results of implementing the resolutions of the Annual General Meeting of Shareholders in 2024 are as follows:

1. Performance of the Company, implementation of Resolutions by the General Meeting of Shareholders and Board of Directors, and key highlights in business results:

The Board of Directors, along with the Company, has always ensured strict compliance with legal regulations.

The Board of Directors has focused efforts on finding solutions to mitigate risks, overcome difficulties, continue restructuring the Company's organization and business operations, leverage all resources, and focus on enhancing technology application and digital transformation. This has successfully transitioned the Company from maintaining its operations to developing production and business, while also improving the lives of its employees.

In response to the unpredictable market trends, developments in the financial and credit system, and business conditions, the Board of Directors, with the leadership's determination and the support of partners, has proactively introduced appropriate business strategies, strengthened risk management, and continued efforts to consolidate and enhance the capacity of the operational management.

As per the resolutions of the Annual General Meeting of Shareholders in 2024, the total business revenue reached VND 1,002.14 billion, achieving 90.56% of the target set, and the profit reached VND 84.07 billion. The Company has declared a dividend for 2024 at 15% per share (each common share will receive VND 1,500).

2. Activities of the Board of Directors:

2.1. Meetings and Decisions of the Board of Directors:

In 2024, the Board of Directors held 10 Board meetings and extended meetings in various formats to implement the Resolutions of the General Meeting of Shareholders, approve business plans, quarterly and semi-annual performance reports, define quarterly and annual business strategies, address market development issues, provide strategic directions for business development, and implement the Company's Restructuring Plan.

(Detailed meeting records are specified in the Corporate Governance Report 2024).

2.2. Board of Directors, Supervisory Board, and Internal Audit Committee remuneration in 2024:

According to the resolution of the Annual General Meeting of Shareholders in 2024, the total remuneration paid to the Board of Directors, Supervisory Board members, and the Internal Audit Committee for 2024 was VND 1,092,000,000.

(A summary table of income for the members has been disclosed in the audited 2024 Consolidated Financial Statements and the 2024 Annual Report of the Company).

2.3. Evaluation of the Board of Directors' responsibility performance:

In 2024, the Board of Directors performed its duties diligently in accordance with the Company's Charter and legal regulations, overseeing, leading, and managing operations in line with strategic goals.

In a fiercely competitive market and amid the economic recession, the Board focused on management solutions and operated the Company with a flexible organizational model and business methods, adapting to market conditions and trends.

3. Monitoring results of the General Director and management officers:

The Board of Directors always provided the best conditions for the General Director and the management team to perform their duties in line with the Company's Charter, the Resolutions of the General Meeting, and the Board of Directors.

The Chairman of the Board of Directors, on behalf of the Board, directed and monitored the activities of the Board of Management through resolutions, decisions, documents, and other methods as per the powers outlined in the Company's Charter and governance regulations.

The Board of Management complied with and strictly implemented legal regulations, the Company's Charter, resolutions of the General Meeting of Shareholders, and the resolutions of the Board of Directors. Each member closely followed their tasks, providing specific, decisive guidance to resolve difficulties and obstacles in business operations promptly.

4. Goals and plans for 2025:

It is forecasted that in 2025, the business environment will continue to face many challenges that will significantly impact the Company's operations; high global inflation, along with price fluctuations for essential goods and raw materials used in production and business, as well as efforts to combat inflation, tighten monetary policy, and reduce consumption, will severely affect the passenger taxi transportation business.

Accordingly, in 2025, the main strategic focus will be to maintain stability and sustainable development, closely tied to enhancing the comprehensive restructuring of the Company, effectively managing risks, and achieving a total revenue and other income target of VND 999.85 billion, which is 93.05% of the 2024 target.

The Board of Directors has identified the operational direction for 2025, continuing to focus on monitoring the economic, financial, and market movements both domestically and internationally, as well as adapting to the state's policy adjustments to promptly restructure the organization, resources, personnel, and policies accordingly:

Our responsibility is to express an opinion on the consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. In making those risk assessments, the auditors consider internal control relevant to the Group's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
