V. DISCUSSION AND VOTING ON REPORTS AND PROPOSALS

1. Discussion Session

The shareholder with code APG0013 raised several questions.

Mr. Huynh Minh Tuan – Vice Chairman of the Board of Directors – responded to each of the shareholder's inquiries in turn.

Question 1: What is the basis for the company's sharp revision of its revenue and profit targets compared to the previous proposal? What is the contribution structure of each business segment?

→The significant upward adjustment in the business plan reflects optimistic expectations regarding Vietnam's potential market upgrade, early results from the company's restructuring efforts, and the involvement of a strategic partner, which strengthens the company's capital base. The margin lending segment is expected to contribute approximately 60% of total profits, with the remainder coming from proprietary trading, investment restructuring, and brokerage services.

Question 2: Has the company secured any investor for the upcoming private placement? Are they domestic or foreign, and how feasible is the plan?

→APG has received interest from various domestic and international partners. The Board of Directors is confident in the success of the private placement and is in the process of selecting a partner aligned with the company's long-term development strategy.

Question 3: As the company plans to raise a large amount of capital to expand margin lending, how does it manage related risks?

→Risk management is a top priority at APG. The company has established a standardized and stringent risk control system, incorporating unpredictable factors such as taxation. The core principle is to proactively prevent risks rather than merely respond to them.

Question 4: What is the company's new strategic focus following the restructuring?

→APG aims to strengthen its retail business, supported by modern technology platforms — a key trend in the evolving securities market.

Question 5: It is known that the company plans to relocate its headquarters to Ho Chi Minh City and upgrade its technology infrastructure. Can you elaborate on the IT system and whether it is compatible with the KRX platform?

→The new head office, located in the financial center of Ho Chi Minh City, reinforces the company's professional image. APG has invested nearly VND 100 billion in the first phase of its trading technology infrastructure, which meets the integration requirements with KRX, ensuring high performance, system stability, and enhanced user experience.

Question 6: How does the company assess the market outlook for 2025? What opportunities could arise from a potential market upgrade, and how has the company prepared for them?

→APG views the market upgrade as a significant opportunity not only for securities firms but for the entire Vietnamese stock market. The company has made thorough preparations in terms of internal resources and strategic partnerships, including foreign major shareholders, to fully capitalize on the upgrade and expand its financial and asset management ecosystem.
